AN IMPORTANT MESSAGE FOR POTATO MEN

Disease of Tuber Crop in Utah Has Been Successfully Treated, Says Dr. Hill.

Dr. G. R. Hill of the department of botany of U. A. C., who for the past five years has been making a study of the potato diseases of the state, brings back an important story from the farmers' institute held last week in Weber county. Owing to the bad drainage and the rapid spread of potato diseases, potato raising has almost disappeared from Hooper, where it was once the leading crop. At Plain City, however, where farmers treated their seed last spring with a solution of mercuric chloride in the proportion of four ounces to forty gallons of water, the crop was free from disease and far above the normal. This is one of the most important statements yet issued by the college authorities and it will no doubt revolutionize the potato industry in the future.

The Best Proof

Utah County Citizens Cannot Doubt It

Doan's Kidney Pills were used—They brought benefit. The story was told to Utah County residents.

Time has strengthened the evidence. Has proven the result lasting. The testimony is from Utah County. The proof of merit is convincing. Mrs. John O. Adams, 52 Merchant St., American Fork, says: "I suffered a great deal from pains through my back and kidneys. In the morning when I got up I was so lame and sore across my back that I could hardly drag myself about. It took Doan's Kidney Pills but a short time to rid me of these pains and aches. Three boxes made a cure." (Statement given August 22, 1907.)

OVER FIVE YEARS LATER Mrs. Adams said: "The cure Doan's Kidney Pills made for me has remained lasting."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Adams had. Foster-Milburn Co., Props., Buffalo, N. Y.
